

## **NY Municipal Home Rule Law New 2021 Redistricting Criteria**

A plan of redistricting shall comply with the following standards, *which shall have priority in the order herein set forth*, to the extent applicable:

- i. If such plan of redistricting includes only single-member districts, such districts shall be as nearly equal in population as is practicable; the difference in population between the most and least populous district shall not exceed five percent of the mean population of all districts. If such plan of redistricting includes multi-member districts, the plan shall provide substantially equal weight for the population of that local government in the allocation of representation in the local legislative body; and
- ii. Districts shall not be drawn with the intent or result of denying or abridging the equal opportunity of racial or language minority groups to participate in the political process or to diminish their ability to elect representatives of their choice; and
- iii. Districts shall consist of contiguous territory; and
- iv. Districts shall be as compact in form as practicable; and
- v. Districts shall not be drawn to discourage competition or for the purpose of favoring or disfavoring incumbents or other particular candidates or political parties. The maintenance of cores of existing districts, of pre-existing political subdivisions including cities, villages, and towns, and of communities of interest shall also be considered. To the extent practicable, no villages or cities or towns except those having more than forty percent of a full ratio for each district shall be divided; and
- vi. Districts shall be formed so as to promote the orderly and efficient administration of elections.
