with updates in 2015 & Feb 2017

Sources:

1. **Sampson List**; compiled by Clayburne B. Sampson, 1952; list is alphabetical, but first names are grouped in families (or lot?); "vet" only, changed to "Veteran" for consistency; frequently lists married women under both names, often confusing, and not always clear which name is which.
 - 1b. *A List of Burials in the Peacock Section of the Mayville Cemetery*, by Gertrude A. Dunham and Clayburne B. Sampson, Oct 1952
 - 1c. Parkhurst Circle, separate page at end
 - 1d. Scofield Circle, i.e., Lot 285, separate section within list, names in alphabetical order
2. **Griswold List**; compiled by Glenn E. Griswold, Cleveland OH, 1931; list is alphabetical; lists specific military servic
3. **Lamb List**; compiled by Frank B. Lamb, 1927; as published in the *New York Genealogical and Biographical Record*, Vol. 58, no.4, Oct 1927; list appears to be in no order and by first name; a pattern may emerge. Definitely old cemetery only, but missed many names, including those at G.A.R. lot 0182
 - 3b. from Peacock Enclosure, appended to Lamb list
4. **Cohen List**; *Gravestone Inscriptions of Mayville Cemetery, Mayville NY*, compiled and edited by Minnie Cohen, 1932; retyped by unknown typist. With note: "The type on the original copy of these records has smeared since 1932 and some information may be in error until it can be verified;" list is in no apparent order, but may be as read, although members of the same family are missing; many apparent typos; misses many middle initials; seems to have been re-typed into a form so "headings" frequently appear w/o data; but still, additional names are included here so all is forgiven.
5. **Village Records**
 - 5a. "Old Cemetery" book - no date of interment, sometimes a death date in notes, and possible that is the interment date; usually name and lot info only; recopied from unknown source(s) as each letter of the alphabet is in lot number order; 5a seems to include deaths from 1841 through 1914, most from the late 1800s and early 1900s
 - 5b. Separate [and current] book, c1948 - present; worked from xerox copies of this one. Age was added only after 1954, then discontinued at some point. Still some mysteries in these records, probably due to human error.
 - 5c. Separate book, called "new cemetery"; approximately 1915-1955. 5c was used for M-Z names only, as it finally made sense where these had come from; corrected in earlier alphabet only when problem-solving.
 - 5d. Lot 0220 page from the separate account book, organized by lot; i.e. Potter's Field
 - 5e. Lot 0290 page from account book, organized by lot; i.e., original Legion Lot
 - 5f. Lot 0182 page from account book, organized by lot; i.e. G.A.R. [Civil War Veterans] Lot
 - 5g. Map of WA section with names. WA had only 57 lots before NA was used; best described as a wedge-shaped insert.
6. **Village Historian records**, often obituaries collected by Devon Taylor through 2005; many burials since then are of spouses mentioned in these obituaries but a decision was made not to take the time to update obituary information as it is more readily available now through online newspaper access.
7. **U. S. Census** at ancestry.com (used to ID "Mother", "Father", when possible).
8. **see RootsWeb World Connect** for information about this person; used for problem-solving only, not consistently.

Notes, General:

Remember that this project was undertaken to assist family historians. Contact the Village of Mayville, P.O. Box 188, (1 South Erie Street), Mayville, NY 14757, mayville5@fairpoint.net, for official records.

All number references in the Notes column are to source numbers.

Death dates are entered year first to sort properly; interment date entered day first for our sanity

[Bracketed information] was added by us, for whatever reason

"Best available information" applies to all sources, and to the deciphering of those sources.

Italics are used for any information calculated from other information; especially date of birth, but also useful for WA, NA locations when obvious from other records for the same surname, OR if surname shows on existing map of NA section. At times, WA and NA were omitted in 5b records and while some seem obvious, others not so much

and a note to see another name was added. All information was added as found in the official record books, then "improved" with information in italics..

Notes re lot numbers and locations:

Peacock Cemetery and graves there are designated as PC. Graves in the original, old cemetery adjacent to that area never had lot numbers. That means all graves near the road, from the East Chautauqua Street (Route 430) entrance to the Honeysett Road entrance will not have any lot numbers attached to them.

Note that Mayville Cemetery allows cremains to be buried on/with any traditional burial, so duplicate locations can seem confusing but there is probably a family relationship there.

Cemetery lot numbers will sort as entered; sorting by surname and/or cemetery lot will group families; again, even when obvious from other information, map, cemetery lot and/or space, *added information is still entered in italics*. NA locations are in the record book as: NA Here, that reads NA 0140 B9.

140B #9

Observation: the first burial on a lot didn't always get a space number in the records, but often #1 is the only one left in a family and the person without a space number died first.

When sorted by lot number, the order becomes: "blank," i.e. original cemetery without lot numbers; Numbers 0000 [sic] – 0371; "Dearing Lot, Old Cemetery"; NA 0001 – NA 0170, NA 1998 (I.E., new Legion Lot); "Old Cemetery;" "Peacock Cemetery;" "Rogers Lot, Old Cemetery" [see 0015 and 00252?]; "Scofield Circle" [changed here to all 0285]; WA 0001 – WA 0057. All of these designations were used at various times in various sources.

Notes re town cemetery records and last residence:

Record Books are headed "address" and while that appears to be the place of death, it is an assumption. When that address is out of the immediate Mayville area, it is added to our notes field. Observation: as our population ages, more recent locations may indicate county nursing homes and "of Town of Dunkirk" may mean the Chautauqua County Home and Infirmary.

"of Dunkirk" means there might be an obituary in Dunkirk Evening Observer indexes [north county coverage, indexed by Lois Barris and published by Chautauqua County Genealogical Society (CCGS)]. Mayville is a regional cemetery and the various CCGS newspaper indexes could yield information on anyone buried there. See also free online Social Security Death Index to verify this information.
