

1855 Census, Westfield , Second District (Volusia area)

The original copy of the 1855 census for this district, filed with the Chautauqua County Clerk's office, is badly damaged (appears to be old water damage). The pages have darkened so that text is not legible and sections of the pages are missing.

The images of these pages on Ancestry.com are equally poor, and many names have been indexed with question marks.

In October 2017 we (County Historian's office) used a high resolution scanner to scan the pages with varying contrast and brightness. This allowed us to read many of the names, at least in part. Comparing the scanned images to the 1850 and 1860 censuses, we were able to determine most of the names that were left blank in the extraction prepared by Lois Barris in 2008.

The households with names that were not included in the 2008 extraction are listed below, in numerical order. Information that has been newly added is in red.
