

Burials Records of Jesse M. Tiffany  
Undertaker, Fredonia NY

This data was gleaned from four small journals kept by the undertaking firm of Jesse M. Tiffany of Fredonia, NY from Oct 1858 - Feb 1867. The handwriting often left much to be desired and a few pages were all but illegible due to aging of the paper. No doubt many mistakes have been made in transcribing the information.

The first 12 pages consist of an alphabetical listing by surname giving the date of death, the person's age as reported, the burial number (these appear to have been assigned at some later time) and notations included in a few of the records. Most of the records gave a cause of death which I have entered with the second list beginning on page 13. This second list omits the notations. It is in chronological order by date of burial. I found the spelling used in the cause of death often fascinating. It has been retained as closely as I was able to transcribe it.

The original journals are in the possession of The Historical Society of Dunkirk.
