

## 11/13/2020 COVID-19 Updates

New York State's updated travel advisory went into effect on November 4<sup>th</sup> and includes an option to "test out" of the 14 day quarantine requirement upon arriving in NYS. It is important for Chautauqua County residents to understand that the capacity for COVID-19 testing of travelers does not exist at the Chautauqua County Health Department and is limited at private testing sites. The limited rapid testing supplies obtained through NYS are not appropriate for this use as they are being reserved for outbreak response and investigative testing purposes at this time. Travelers can check with their health care provider or private testing sites for availability, result turnaround time and cost.

The outbreak response clinic held in Dunkirk on November 12<sup>th</sup> resulted in 7 positive COVID-19 cases out of 91 individuals tested.
