*Castle Garden, State of New York Emigrant Landing Depot,*

This site was a rocky island off the southern tip of Manhattan. A fort was built to defend New York City in the War of 1812, and in 1815 was named Fort Clinton in honor of DeWitt Clinton, then Mayor of New York. It was refurbished by the Commission of Emigration and opened in 1855 as the nation's first official entry point for immigrants. Passengers disembarked on the seaward side. Inside the Commission recorded the arrivals and performed superficial medical examinations. Most spent about six hours on the island and left by way of a wooden gangplank into Manhattan. Concessions were available for currency exchange, purchase of food, and tickets to various destinations. The structure still stands but landfill has made the island part of Battery Park. The site is now Castle Clinton National Monument.

## INTRODUCTION

The information herein was compiled from four large journals found in the Archives of the Chautauqua Home and Infirmary in Dunkirk NY. These journals have been designated by the Archivist as Journals Number 1, 2, 3 and 31. Apparently, these journals contain excerpts of reports sent to The Commissioners of Emigration at Castle Garden, New York, in hopes of being reimbursed for money spent giving aid to immigrants in Chautauqua County. Journal #1 includes emigrants given relief in Chautauqua County from October 1855 to February 1858. Journals #2 and #3 follow in sequence and cover the time from March 1858 to July 1864. There is a 23 month gap, but Journal #31 starts again with those aided in July of 1866 and continues to July of 1876. A change in format occurs about two-thirds of the way through Journal #3 so that the data has been divided into Parts I and II in order to provide the researcher with all available information in a concise form. Many months have been devoted to compiling this information hoping it will benefit those searching out clues to their family history.

### Some History

The plight of immigrants to the United States was never easy, but by the 1840s their journey was made more difficult by unscrupulous ship-captains and various agents. Emigrants made their way to European ports where they often sold family heirlooms to buy food for the trip to America. The passage took one to three months with constant danger of disease and shipwreck. In 1847, 20 percent of Irish emigrants died of "ship fever." 20,000 emigrants perished in that year in the various emigrant hospitals in American ports. Loss of life from disease continued high and when the *Liebnitz* arrived in New York 11 January 1868, it was called "the fever ship" when it was discovered that 108 of 544 passengers died from "bad ventilation and insufficient provisions." Other ships with high losses from ship-fever were *Guy Mannering*, *Marmion* and *Roscius*. In the 1850s more than 40 emigrant ships sank in the North Atlantic.<sup>1</sup>

Prior to 1847 it was possible for a captain of a vessel to sell their cargo of passengers to brokers dealing with hotel-keepers, forwarding agents, railway and steamboat companies. There were no federal or state regulations administering the flow of immigrants—no passports, no visas. Some agents sold fraudulent train and boat tickets; often the newcomers' baggage was stolen, essentially held for ransom, redeemed only for cash. Male immigrants stopped in saloons for a drink and had their tickets and papers stolen, or worse, woke up employed on a boat to China. Females were directed to "boardinghouses" that were actually brothels.<sup>2</sup>

The New York State Legislature attempted to correct this systematic fraud to which immigrants were exposed by persons engaged in forwarding them from the Port of New York to destinations in the interior. The law of May 1847 required payment of a "commutation fee" of \$1.50 (later raised to \$2.50) a head for support of persons likely to become a public charge, on all persons landing at the port of New York, to be applied for relief of immigrants who should become unable to support themselves within the first five years after landing, by sickness, want of employment or other causes.<sup>3</sup>

This same law of 1847 provided for the establishment of a six member Board of Commissioners to administer aid to and ease the abuses against immigrants. It took until 1849 to organize this Commission which was at first headquartered in the New York Alms House and Marine Hospital on Staten Island. By 1855 the Commission opened the Castle Garden Emigrant Landing Depot in abandoned Fort Clinton, a circular stone fort on a rocky island off the southern tip of Manhattan (now part of Battery Park)<sup>4</sup>

This Commission had no power to control who could enter the country, but it did try to ease abuses against

immigrants. In addition to collecting the commutation fee and reimbursing Offices of the Poor for giving relief, an addition to the law gave the Commissioners power to examine under oath witnesses respecting complaints relative to treatment of emigrants on shipboard, quality of provisions, deaths which may have occurred during the voyage. The Commissioners in 1868 claimed to have punished officers of the *James Foster Jr.*, a Liverpool emigrant ship for atrocities reported against emigrants.<sup>5</sup>

In 1852 the *Proceedings of the Board of Supervisors of Chautauqua County* includes a notice of the special attention of Overseers of the Poor:

Under the act of 5th of May, 1847, each City, Town, and County in this State may claim indemnity from the Commissioners of Emigration for any expense incurred for the maintenance or support of such Emigrant paupers as shall have landed in New York, subsequent to the passage of said Act; provided the names of such persons shall be found on the manifest of the vessel from which they claim to have landed...

...Take an affidavit of the person, in something like the following form: \_\_\_\_\_ sworn, says that he is \_\_\_\_ years of age; that he is by occupation a \_\_\_\_\_, that \_\_\_\_\_ last place of residence was in \_\_\_\_\_, that the foreign port from which he embarked for this country was \_\_\_\_\_; that the name of the \_\_\_\_\_ in which he came was \_\_\_\_\_; that the Master's name was \_\_\_\_\_; that he arrived in New York on the \_\_\_\_ day of 185\_; that he was admitted into the Chautauque County Poor House on the \_\_\_\_ day of 185\_; that \_\_\_\_ inability proceeds from \_\_\_\_\_, that such inability is likely to be permanent; that he is poor, has no means of support, and that he has no relatives or friends in this country, able, at their own charge to support \_\_\_\_\_ ....

Fill out the blank spaces as facts require; have it subscribed by the party and sworn to—the Overseer administering the oath and certifying to the same. If there be wife or children, insert name and age on the top of the affidavit, and immediately forward such affidavit to J. Chandler, Superintendent of the Poor at Fredonia, for examination; if found correct, it will be retained by him. And on the last day of each month, the Overseer should forward to said Superintendent, an account of all expenses for any such emigrants as have accrued within the month.....

Prompt attention to the foregoing directions is indispensable, in order to save harmless our County from expenses which the Legislature designed should be paid without resort to Taxation....<sup>6</sup>

Unfortunately, the Journals in our hands over a century later do not contain all the information called for in the affidavits. Copied from these reports were only the names, ages, vessels, masters, date of arrival in New York, date of administration of relief and the amount of such relief.

Following each month's list of immigrants given relief is a copy of the deductions from each month's claim. This became a chess game between the Overseers of the Poor of the County and the Commissioners in New York. In this book, in the case of a deduction, the record of the individual shows the reason for the deduction preceded by an asterisk.

## CHAUTAUQUA COUNTY VERSUS THE COMMISSIONERS OF EMIGRATION

Included in the *Proceedings of the Chautauqua County Board of Supervisors for 1870* is a history of the Chautauqua County Poorhouse. Pages 201 to 207 documented the county's relationship with the Commission of Emigration and excerpts from this work will help us understand what was happening at the time the names included in this book were entered into the Journals.

The statistics of 1852 showed further increase of expenses due to the demands of emigrant paupers and the settlement of claims for indemnity for relief of them by the Commissioners of

## Emigration.

During the construction and after the completion of the New York and Erie Railroad, the County was flooded with foreign paupers. The number of poor relieved in 1850 was 431, in 1851, 510; 877 in '52; 774 in '53; 2,160 in '54 and 2,952 in 1855—an increase of nearly seven fold within five years. This increase was nearly all by emigration, and of temporary relief. The number received at the *County House* in 1850 was 239 and in '55 only 283—not a large increase there.

The Superintendents in 1850 estimated that aside from the demands of the floating population on the railroad with their sickness, bruised heads, broken limbs, &c, the expenses of the department were less than for the previous year.

The statutes passed in 1847 and subsequently, make the Commissioners of Emigration liable for the poor relief furnished to emigrants at any time within five years after they land, provided they have not been absent from this State at any time for twelve months consecutively. By the rules of the Commissioners, applications for indemnity must be accompanied by a statement of the names, age, occupation, last place of residence abroad, name of vessel he arrived in and name of its commander, foreign port at which emigrant embarked for America and date of arrival at New York; all of which must be sworn to by the emigrant. The relieving officer must also make oath to the necessity for the relief granted, cause for the pauperism, &c. Many of their rules are extremely exacting; for instance, that the emigrants asking relief must be taken immediately to the Poor House and put to labor, and the value of their labor deducted from the actual net cost of said relief. Monthly statements must be presented for each month within ten days after the close of it, giving full information of admissions, discharges, present condition, expenses, &c.

In 1852 the Superintendents of this County made their first claims on the Commission and recovered indemnity to the amount of \$588.46. Great trouble and loss were occasioned by the Overseers who administered this relief not securing the necessary vouchers to comply with the "red tape" rules of the Commission, and not reporting promptly. To secure more accuracy and promptness, plain and full directions, with accompanying forms, were furnished to the Supervisors in 1852 and by them printed in their published proceeding, year after year.

The annual report of '54 handles this subject of emigration rather racily. I quote:

Since the date of our last annual report, 1,262 foreigners have received "aid and comfort" at the hands of the Poor officers of this county, whose names we have reported to the Commissioners of Emigration. many of these were paupers in Europe, before coming to our shores.

On the 25th of November last, the ship *Michael Angelo* arrived in New York, and within twelve days thereafter, 67 of her passengers were, at the commencement of winter, without money, means or friends, thrown upon our county for relief. Many of them stated to us that they were poor, and had no money or property in Baden, their former home; that their passage to America was paid, by whom they did not know, and that when arriving in New York, they were furnished with railroad tickets to Dunkirk by a still mysterious arrangement. Representations were made to them that when they arrived here their every want would be supplied; that Dunkirk was the goodly place where all could find employment, friends and every needful thing. Here they came, sick and enfeebled by a long and boisterous passage across the ocean, strangers in a strange land. Here the protecting care and solicitude of their Father Land ceased in their behalf. Here the mysterious spirit which had hovered about them, distributing its favors from Baden to Dunkirk, withdrew its support, and left them paupers upon our County. Consequently, many of them had to be sent to your Poor House for a winter's support, and some of them remain there still; for others we have obtained employment where they are supporting themselves, and several of the children have been bound out to good places. We report the above facts, as they seem to prove the truth of the statement, "that the Poor Houses of Europe were being emptied into our cities and villages."

I think this was written by Mr. Chandler.

[Friedrich Kapp seems to agree with Mr. Chandler as he writes on page 89 of his *Immigration & The Commissioners* about the "...Unscrupulous conduct of European governments and cities in transferring to our country aged and decrepit paupers and occasionally even criminals."]

During several years the annual reports complained of losses of emigrant indemnity through neglect of town overseers to comply with proper forms

The refusal of the Commission to pay for the services of relieving officers occasioned much controversy between our Superintendent and the Commissioners. This issue is referred to at much length in the *Annual Report of 1858*. The points made are condensed here:

As evidence that the Superintendents exercised due diligence to collect this indemnity it is mentioned that but two counties in the State (Albany and Kings) got back as large a sum as this County, and they recovered a much less per cent, of their claim, than we. The average "cut" on all bills against the Commission from the entire state was 25 per cent. This County was discounted only 7 per cent. Nevertheless the Commission justly owes this County \$1,000 for services of Overseers the past 5 years. The legality of this claim is clearly presented, and the arbitrary, unlawful attitude of the commission shown up. The report on this point closes as follows:

We have remonstrated with the Commissioners of Emigration against the application of their resolution to our County. We have shown them that the law gave the Overseers of the Poor discretionary authority to expend the sum of ten dollars for one poor person or family, who required only temporary relief, and that such persons could not properly or legally be sent to the Poor House. We have shown that Dunkirk, the principal point of emigrant pauperism in our County, is more than twenty miles from our Alms House; that large numbers were landed there from the cars, having boat tickets for some western port, but with no means of sustenance; that such persons were frequently compelled to wait from two to five days for a boat to leave (as in case of a storm); that during such time they must beg from house to house, or suffer for the want of food or shelter, or the Overseer of the Poor must provide them sustenance. That it would be worse than folly, that it would be a flagrant wrong to take such persons over the hills to our County House to stay two or three days, and then hire teams to re-convey them to Dunkirk, to enable them to pursue their journey, and that probably many having since become inmates of our Alms House might prefer to remain and thereby become a permanent charge on the County; that during the winter months the roads were frequently nearly or quite impassable for several days in succession, and it would be next to an impossibility to convey emigrants at such times to the County House, within twenty-four hours as prescribed in this resolution.

To these and many other reasons which we have advanced to the Commissioners, why they ought to rescind or modify their resolution, so far at least as it regards our County, they have replied that they shall "adhere to the rule prescribed." And now as you are proper guardians of the tax-payers' interests for our County, we would solicit your counsel and advice, in reference to the course we shall in future pursue. Shall we tamely submit to the unjust and illegal requirements of the Commissioners of Emigration? Shall we leave the Emigrants to beg from door to door for food, and sleep in our streets at night? Shall we commit the flagrant injustice of filling our County House with emigrants who only require a few days' sustenance? Or shall they receive the necessary aid in that way and manner which the statute provides? If so shall our tax-payers bear the burden of such expense while the Legislature has provided that our County should be reimbursed from the Emigrant fund?

It should be stated that the Commissioners claimed that by the wording of the law they were to indemnify *only* for the relief.

The Supervisors responded to this appeal by the passage of a resolution (Oct. 15, 1858) authorizing the Superintendents, if necessary, to commence legal proceedings against the Commissioners of Emigration to compel them to audit all legal accounts. Armed with this authority, Mr. Chandler, one of the Superintendents, went immediately to New York and demanded a settlement of six years' claims for services of Relief Officers. It is an evidence that the

Commission doubted the legality of its own position, that they acceded to the demand under prospect of litigation and *agreed* to pay the accrued claims which they had for years been repudiating. This agreement was made in writing. Nevertheless, they never fulfilled it. The Commission has upon it men of standing and character, but its course is dictated in some matters by anything but business honor. There have been evasions and open repudiation of fair contracts in dealing with this County that are entirely indefensible.

In 1861 the Superintendents again pressed the matter of these deferred claims upon the attention of the Commission,....The Commission returned no answer whatever. The claims at that time amounted to about \$4,000.....

In 1866 the case was put in the hands of Hon. W. L. Sessions, then in State Senate, and he introduced a bill compelling the Commissioners of Emigration, under penalties, to pay claims for services of Relief Officers. The matter was now pushed with vigor...the Commissioners took alarm....They sent an emissary to negotiate with Senator Sessions for a stay of legislative proceedings ....made a bargain that if the bill be withdrawn the Commissioners would make a special rule in favor of Chautauqua County under which they would pay for the services of one deputy of the Superintendents to be stationed in Dunkirk to relieve the emigrants; They also agreed to pay the claims for similar services during the year 1865 which amounted to \$447.50. They proposed to pay no claims back of 1865.

The following is a copy of the proofs sent to Senator Sessions, upon which, according to agreement, the proposed law was never perfected:

Office of the Commissioners of Emigration,  
Castle Garden, New York, March 23, 1866  
Friend Sessions:

I herewith enclose you a copy of the Resolutions passed at a meeting of the Board, held on the 21st inst. I hope it will be satisfactory. Yours &c., John P. Cumming.

At a regular meeting of the Commissioners of Emigration....the following was adopted:

*Resolved*, That the county of Chautauqua is entitled to receive of the Commissioners of Emigration annually, out of the Emigrant Fund, a sum sufficient to pay for the services of the Deputy Superintendent of the Poor of said County at Dunkirk, while engaged in taking care of the emigrant poor entitled to support from the Emigrant Fund....is hereby ordered paid. B. Gin Casserly, Sec.

Hereupon the law was not put upon its passage. Having secured their ends the Commissioners, as before, repudiated their obligation.

The Superintendents, in pursuance of this compact, appointed Emil Keller their deputy at Dunkirk, and he proceeded to relieve all the wants of emigrants. But when the bill for his services was presented, the Commissioners refused to pay. After two years of these bills had accumulated, in amount \$2,340, besides \$447 for the claims of 1865, the Commissioners graciously offered to compromise and pay the County *one thousand dollars*, for the \$2,787.50 "and call it square." In addition to this, they met September 10, 1868, and *repealed* the resolution of March 21, 1866, which they had adopted as their part of the contract then made.

The Superintendents laid the whole matter and the documents before the Supervisors at their annual meeting in 1868. The Board again authorized the Superintendents to collect the claims by law if necessary. Messrs. Charles A. Spencer and Wm. A. Mayborne, Superintendents, proceeded to New York in 1869 and informed the Commissioners they had come to stay until those claims were settled. By persistency, coaxing and threats they at last secured *part* of the claim. They effected a compromise settlement with the Commission, accepting \$2,150 as a satisfaction of the whole claim. The County has thus to submit to the loss of \$637.50 of its just claim. This, added to about \$5,000 previous claims, gives the amount of tax unjustly imposed on the County by the Commission.

In 1867 the Commissioners appointed an agent at Dunkirk to whom all applications for emigrant relief must be made. His salary is \$1,000 a year and he has an assistant whose pay is \$365. This is much more than the highest claims ever made for service by this County. The business has fallen off so at Dunkirk that the office is practically a sinecure. The appointment was originally made through political intrigue for the benefit of a favorite; certainly not to save the Commission money or this County costs. Overseers in this County yearly administer from two to six times as much relief to emigrants as the agents at Dunkirk do. The agent and his assistant get \$1,365 for their small duties and the Overseers are allowed nothing by the Commission for their larger services; the taxpayers have to bear the burden of this injustice. The money which should go to relieve the taxpayers is diverted as a politician's perquisites. As the agency largely increases the expenses both of the Commissioners of Emigration and this County and benefits no one but the two or three men who draw the salaries, it is obviously just and politic to change the condition of things. If the letter of the statutes be authoritatively decided not to include fees of relieving officers as a part of the emigrant expense to be indemnified by the Commission, then an amendment should be passed compelling the Commissioners to audit bills for service, as well as relief, in any county in the State. Such is the spirit of the law and such should be its interpretation and wording.

The following table shows the number of Emigrants relieved and the amounts paid to the County Poor Fund each year by the Commissioners of Emigration:

1852	not given	\$ 588.46
1853	579	1,785.33
1854	1,262	2,369.08
1855	1,996	2,740.11
1856	1,169	.00
1857	1,617	3,039.20
1858	1,904	800.25
1859	1,321	.00
1860	1,433	6,094.69
1861	1,261	1,039.27
1862	1,578	1,236.13
1863	3,435	1,083.18
1864	4,687	2,503.88
1865	3,724	2,522.56
1866	5,095	3,076.96
1867	3,865	4,255.65
1868	1,243	3,499.75
1869	477	3,662.67*
1870	501	1,895.68

\*includes \$2,150 for services during 1866 & 67

To recover this amount from so exacting and evasive an agency as the Commissioners of Emigration must have required great care, perseverance and skill on the part of the Superintendents....

#### RELIEF OF EMIGRANTS IN CHAUTAUQUA COUNTY SINCE 1870

The above history should explain to those using this book the peculiar situation of Chautauqua County in the Emigration experience of the past century.

The *Procedures of the Board* for 1871 stated that 277 emigrants were relieved during the year, an increase of 172. In 1872 relief of 394 immigrants was reported, "an increase of 117 over last year." \$1,702.57 was received from the Commissioners in 1872, leaving a balance due the County of \$5.82.04.

In 1873 301 emigrants were relieved at a cost \$1,224.15. On page 162 of the 1873 *Proceeding of the Board* we find the following breakdown of number of emigrants relieved in the various places in the County and the cost at each location:

Town of Dunkirk	266	\$757.59
Town of Ellicott 15	79.75	
Town of Pomfret	3	9.99
Town of Clymer 8	25.00	
County House & Asylum	9	369.82
	total	\$1,224.15

771 emigrants were relieved in 1874 and it was reported that all claims were settled to May 1st 1873. The breakdown for 1874, found on page 127 of that year's *Proceedings* was:

Dunkirk	635	\$1,292.21
Ellicott 72	97.14	
Arkwright	1	14.78
Kiantone	1	4.79
County House 62	658.47	
	total	\$2,067.49

Of the above number, 437 were males, 334 females. The nationality was as follows: German, 524; Scotch, 5; English, 66; Irish, 33; Swedes, 137; Danes, 2; French, 2; Bohemian, 2.

During 1875 737 were relieved with no settlement from the Commission since last year's report to May 1873. Since that date expenses of \$4,114.97 had accrued with relief for the year reported by town:

Dunkirk	663	\$1,217.53
Ellicott 34	133.02	
Portland	16	16.00
Poor House 24	304.47	
	total	\$1,671.02

Of this number, 375 were males and 362 were females. The nationality was as follows: English, 6; Irish, 6; German, 640; Poles, 8; Swedes, 69; Danes, 4, and French, 4.

The *Proceedings* for 1876 reports on page 140 that since March 20 of that year, no separate account was kept and that pauper emigrants outside the County House have received aid as any other poor in the County. It was explained that it was almost a certainty that nothing would be realized from the expense of taking affidavits and transmitting such records. Almost \$5000.00 was now due the County from the Commissioners of Emigration and nothing had been received since May 1873.

The last report on emigrant relief in the County from that same page is as follows:

The Supreme Court of the United States in March 1876 decided that the payment of commutation money for alien emigrants was unconstitutional and therefore void thus closing the avenue through which the Commission received its funds for the liquidation of such claims. The State Legislature appropriated \$200,000 for the payment of the current expenses of the Commission for one year from the first of May last. No provision was made for past indebtedness. From this appropriation the Commission has reimbursed our county such expense as has accrued for the keeping of pauper emigrants in our County House for the months of May, June and July, five in number, and amounting in the aggregate to \$92.11. This course will probably continue through the year. They refuse to allow us for outdoor relief, except on written authority, intended as we suppose to cover extreme cases only. As stated we have dismissed the consideration of anything occurring previous to the first of May....

The report for 1876 indicates relief as follows:

Dunkirk	466	\$511.85
County House before May	5	199.61
County House after May	5	92.11

Of the above number, 271 were males and 190 females.... German, 456; Swede, 5.

No further mention of emigrants was found in *Proceedings of the Board of Supervisors*.

It appears then, that in the four journals we have a complete record of those emigrants assisted in Chautauqua County under the provisions of the law of 1847 with the exception of those assisted from 1852 to the beginning of Journal #1 in 1855 and the 23 month gap from July 1864 to July 1866. It is presumed that the relief was given at Dunkirk unless otherwise stated.

We get a little more insight into the emigrant experience in Dunkirk from an item in the *Fredonia Censor* in February 1874:

A civil damage case in Dunkirk promises to be serious to John Larkins, keeper of an emigrant house. One Ignatius Sobolsky, recently from Germany, stopped at Larkin's house and was persuaded to indulge in drink. When the emigrant came to put on his coat which he had laid off in a back room during the spree, his pocket book was missing with the tickets of two women traveling under his protection. One of the women under the direction of the Emigrant Agent brought action against Larkins, claiming that by means of the liquor sold Sobolsky, he lost the tickets. Justice Sherward gave judgement for \$25 and \$5 costs. Then the other woman brought her suit and was awarded \$35 and costs, and now Sobolsky thinks he will try a round at the same....

Lois Barris, 1991

## PART I

This is an alphabetic list of individuals and groups of emigrants given relief in Chautauqua County from October 1855 through September 1863. The information was extracted from Journals #1, #2, and #3 found in the Archives of the Chautauqua County Home and Infirmary in Dunkirk, New York. All available information of interest to genealogists is included in this compilation. The journals contained names, ages, date of arrival in New York, name of vessel in which they arrived, name of the captain and the date they received relief. The name of the captain is not included in this list.

Most of those relieved seemed to have been given a meal, probably at a "soup kitchen" on the street near the railway station in Dunkirk. In part one, the amount of relief charged to the Commissioners of Emigration for each group is given. Any note or other information about the people or type of relief given is included. In the beginning, a separate affidavit was used for each individual or family. As the record proceeded it seemed that the Overseers giving relief began to list more and more people on a single affidavit and the record here lists persons as arriving "with John Jones" or whoever. It is hoped that this information will be helpful to the researcher.

An asterisk indicates that the charge for that person was rejected by the Commissioners and gives a reason such as "\*not on manifest." At the end of each month's report was a list of those rejected and the reason. Often the name in this list was quite different than that in the first listing. After seeing the deduction list, it sometimes became clear that the name had been misinterpreted by the compiler. Often, however, we could not reconcile the two versions of the name and this was indicated by including a variation of the name [as interpreted from the deduction list] in the statement following the asterisk.

The researcher should be aware of the pitfalls of compiling a list of names from journals such as this. The person recording the name was interpreting what he heard pronounced and wrote in his best phonetic style. The author of this work tried every means available to translate what was actually written in the journal. In addition, it was often impossible to distinguish between an S or L, a Z, Y, or G, and in some cases a P or T. Sometimes the name seemed to be a series of meaningless loops. The researcher is warned that there is no guarantee that what appears here is a true interpretation of the Emigrant's name. In a few instances, it was impossible to guess at a letter and that letter is recorded in this work as a lower case x.

BAUM	Peter 39	New York	05/28/61	44.00	6/22/61;	S7 burial crg billed 7/61;
<p>July 1861: Peter Baum's is an extreme bad case. Board, attendance and paid watchers. [S37 listed in board column and S7 in burial column, but it is possible the extra for the paid watchers amount was placed in the burial column] Seven dollars was deducted from the July bill for Peter Baum with the note: One dollar per day should be sufficient for attendance as the board of a person in that state cost but very little. [The S7 was recharged in the August bill with explanation in a note written. It was apparently paid as there was no S7 deduction from this bill. The note referred to was not copied into this journal.]</p>

<p>March 1860: Mr. Bucher's [Jesse] family will not, we think, be chargeable to the Commissioners of Emigration for a very long time. They are a family of good habits and respected for their industry. He was in this country nearly two years before his wife came &amp; labored to get money to bring over his family &amp; get them a home. Sickness has brought them to want. See physician's certificate. [and in margin of April report]: Mr. Bucher &amp; family are now able to support themselves.</p>

					15.00	Nov 57 bill;	relief on this case denied
<p>May 1857: Maria Barbara Busch is correct. The rejection last month was owing to a clerk's mistaking the date of arrival. The passport is enclosed in the package forwarded today by express. November 1857: \$15.00 charge for temporary relief charged for Maria B. Busch with note, "We regret being compelled to reject the charge....Too many applications....in cases stated to be much harder....Your claim cannot be allowed."</p>

HORTMAN	Catharine	25	Rich'd Cobden	08/07/54		11/22/56; see Christiana Scheale
	November 1856: Catharine Hortman is not on the manifest of Richard Cobdren. Her husband Mathias, who with her was admitted to Chaut. Co. Poor House November 1854, is on that manifest & his name being found, led us into the error of allowing for her. Please have inquiry made as to what ship & under what name she came & inform with next bill. [There is no record for Mathias Hortman in this record which begins with October 1855. On the January billing we find Christiane Scheale with the notation, "Admitted under name Catharine Hortman."]

Landers April 24, 1859: In such cases as those of Landers & Guiski, the Physicians Certificate should accompany the bills. In margin May 1861: Luke Landers is improving & will soon be able to be removed to the County Poorhouse or provide for himself. And at the end of the report for June: Luke Landers is now able to be removed to the County House & will have to convey him there unless he is able to care for himself. And at the end of July: We hve been obliged to remove Luke Landers to the County House & as he has been reported the keeper did not take his affidavit. A charge of \$1.45 is added at the end of the July bill for "provisions and wood" for Luke Lander's family.						
LANDERS	Luke & family	29	Washington	07/09/58	57.52	in poorhouse as of 01/01/62

MIRKE	Mena	35	John Elise	10/07/57	.50	12/16/57
MISWRA	Andreas	11	Shakespeare	08/21/56	16.25	9/13/56; with John; not on
	John	8	with Andreas; not on manifest;dis	11/13/56*		
October 1856: Andreas & John Miswra, rejected from your last bill as not being on mainfest of ship Shakespeare, have been sought for through the German society, by their parents who are in Milwaukee. They say that all their passages were paid from New York to that place, but in the hurry of starting they got into separate cars, which is doubtless the reason why the children were put out at Dunkirk. Will you please have the two children sent to Milwaukee, with directions to call on the German Society there, where they will be sent to their parents, and, charge whatever expences have been, or may be incurred for them in your next bill.

November 1861: The family of Mr. Rahn came to Dunkirk destitute, his wife was confined & not in condition to be removed anywhere. Necessity compelled the Overseer to administer to their relief. (written after \$9.00 for board is \$4.82 for "provisions") The family appears on December report with board bill of 1.91 for 11/29/61 with note: his wife confined.

names of emigrants	age	vessel	arrived NY	charge	admitted	information
SCHABERG	H.	35	Arnold Berring	07/01/57	54.00	07/05/57; 6 in family, 18 day stay
	Gertrude	3				
	Herm	8				
	John	7				
	Louisa	5½				
	Maria	36				
July 1857: [The family of H. H. Schaburg arrived in Dunkirk on July 5th. There is no transportation charged so we may assume they were kept in Dunkirk. The note is in the margin next to the \$54.00 charge for board, with no particulars as to which child or what limb was involved.] Child had to have limb amputated. Six in the family and had to stay 18 days.

A burial charge of \$3.50 appears on the first bill for this family—October 1855. These five are listed for the next three months, then disappear. In December 1856, Joseph and Elizabeth are listed with statement that Elizabeth died 12/9/56 with a burial charge of \$4.00.

## PART II

On November 1, 1863 (two-thirds of the way through Journal #3), record-keeping changed. Now a column was added giving nativity of the group (not individuals). The charge system was changed to reflect the cost of supplies rather than the cost to aid each individual or group. Our record reflects this change and Part II includes the note of (stated) nativity and, except in unusual cases, the cost of the aid is omitted. If the charge was unusually high, it was probable medical attendance was given. Any burial charge was noted. The individual who died was not usually designated, so the burial charge is sometimes a clue as to whether an adult or child was buried.

In a few cases, the recorder neglected to indicate nativity. In these cases we have included in the nativity column the number of the affidavit filed. By checking that name and number with the other names on the ship list in Part III, you can get a clue as to the nativity of the group the individual was traveling with.

Any note or clue to what happened to an individual or group is included in some way. Any statement in quotation marks is exactly as it appeared in the journal. A statement preceded by and asterisk (\*) indicated that the charge was disallowed by the Commissioners of Emigration. The most common reason was that the name did not appear on the manifest as claimed. If only one such statement appears with the group, it indicates no one on the group was found on the manifest. If only part of the group was disallowed, this will be indicated.

Journal #3 ended with July 1864. Journal #31 started July 1866 and follows a similar format as Journal #3. The Supervisors Reports for that time period would indicate a similar procedure was followed for that 23 month period but those records were not found. By 1870, fewer and fewer new emigrants appeared to be passing through and in need of aid. Those aided in the 1870s seemed to have remained in the county for a longer period of time and needed help because of illness or accident.

## PART III

### EMIGRANT SHIP LIST

The following section is a alphabetic list of vessels by date of arrival in New York. These are not complete passenger lists for these vessels, but lists of those persons aided by Overseers of the Poor in Chautauqua County NY who stated that they arrived at New York on that vessel. Only ships named by emigrants with *two or more different surnames* were listed. If a ship is named in Part I or II of this work and is not listed in Part III, all persons involved herein had the same surname.

The several persons who wrote the information in the journals used different variations of abbreviations for the name of the vessel and the emigrants certainly did not always accurately state the name of the ship on which they arrived. We find a vessel listed as the Sir Robert Peel, the Peel, Robt Peel, etc. There is the C Grinell, the Grinell, the Cornelius Grinell. The researcher is advised to search the list using any part of a three part name for its place on the alphabetic list.

An attempt was made to verify and justify this list with the actual Marine List put out by the Commissioners of Emigration. This required the compiler to make assumptions that may not have been factual, so this list remains unverified, but does reflect the information given in the journals at hand. The Marine lists are available to individual researchers in the archives at the Chautauqua County Home, Journal #17.

Many families had more than one person with the same given name. In this list, those names are not repeated but a number after a name indicates the number of persons in the group with that same name.

ALPHABETIC LIST BY DATE OF ARRIVAL NY OF VESSELS NAMES BY EMIGRANTS AIDED IN CHAUTAUQUA COUNTY NY 1855-1876

## APPENDIX A

On a scrap of paper inserted after the last page of entries in Journal #31 is this notation:

Stopped taking affidavits the last of March 1876. Affidavits taken in Dunkirk, not reported amount to \$505.65. Not reported in Poor House \$50.54. Reported during the year in Poor House, 5 Swedes cost \$241.18 and one female German Dunkirk cost \$6.20.

## APPENDIX B

In the collection of Chautauqua County Historical Center in Westfield NY is a letter that will be of interest to persons doing research in this book. Virginia Barden brought this letter to our attention. It was written by a Mr. Williams of the Old "Black Star" Line Packet Office, 40 Fulton St. NYC, to James Brown Engle in Detroit, appointing him as agent for passage on ships of said line. The letter was dated April 29, 1853 and states that 30 passage orders (numbered 5233 to 5262) are enclosed. Mr. Engle worked at C. W. Howard & Co.

The letter at CCHC is accompanied a bill to Howard & Co. for advertisement in the *Detroit Vindicator* from 28 May to 28 August 1853 at a cost of \$3.00. This lists the Liverpool Packets of the Old Black Star Line as being "First Class Ships, sailing punctually from Liverpool every five days." and names the ships: Australia, DeWitt Clinton, E. C. Scranton, Enterprise, Guy Mannering, Irene, J. A. Westervelt, Silas Greenman, Sandusky, Ticonderoga, Universe, Marmion, Leviathan, Niagara, Princeton, Robert Kelly, Owego, Saratoga, Wm. Rathbone, Wm. H. Harbeck, Southampton, and Washington.

This advertisement describes the "Magnificent" ships with Captains "famed for their nautical skill," and includes this paragraph:

The passage certificate by this line, directs the Emigrants to come forward whenever ready, without subjecting them to the delay and uncertainty of waiting advice from Liverpool; in fact allowing them to select their own time for embarking which cannot fail to give universal satisfaction. In all cases where the persons paid for decline coming out, the full passage money is returned without any deduction.

The letter itself informs the agent that the cost of passage from Liverpool to New York for adults is \$18.00, children from one to 12 years \$14.00, infants under 12 months \$5.00. Drafts \$5.00 per pound sterling. No orders were to be issued for children without an adult.

The letter also states that, "We are inclined to give you every facility for doing business and enabling you to compete with other agents in your town....We will allow you to take \$17 for adults, \$13 for children and \$4 for infants where you cannot get the former rates...." Commission allowed agents was \$1 on full passage and 50 cents for children. For persons wishing to pay the full fare from Ireland, the agent was to collect the following rates for passage to Liverpool: from Dublin, Drogheda, Dundalk, Nuery, and Warrenpoint—\$1.00; from Belfast or Londonderry—\$1.25, Sligo & Colaraine—\$1.75; Waterford—\$1.88; Cork or Limerick—\$2.50. In each case, fare was ½ for children.
