## PREFACE

The Grape Belt began publication at Brocton NY in January 1893, moved to Dunkirk after the first year, and continued publication until 1960. For this book, we have extracted information from the beginning through December 1899. Our Evening Observer indexes begin with January 1900. We suggest that the genealogical researcher consult both these publications and also check our two books of extractions from the Fredonia Censor. Used together, these publications of the Chautauqua County Genealogical Society can provide considerable information on families who lived in the northern part of Chautauqua County in the past hundred years.

The entries are arranged alphabetically. Following the name that heads an entry, a key letter: D for death, M for marriage, B for birth, R for family reunions or relationships, and X for other items that were of interest to the person doing the extraction. The third item at the head of each entry indicates the date or time reference of the event. Next is the village, city, or geographic location where the event took place. The last item, at the right side of the heading, is the date of The Grape Belt from which the item was extracted. Using this information, the researcher can find the original article to check information or to get more information. The Grape belt is available on microfilm at Dunkirk Free Library in Dunkirk NY, and in Special Collections at Reed Library on the campus of New York State University College at Fredonia NY.

The researcher should be aware that the Grape Belt relied on non-professional correspondents in the many four-corners locations for news. Some incidents reported simply did not happen, and those that did may have a name or fact wrong. When a correction was given, this was incorporated into our extraction, but there is no doubt that an event (especially a marriage) was reported that did not happen. When the same incident was reported with more than one version of name or fact, we included the difference. We did our best at name spellings, corrected the ones for which we had personal knowledge, but in most cases used the spelling that appeared in the paper. On the other hand, many births, deaths, and marriages happened throughout the area during these eight years that did not make the pare, therefore could not be included in this book. There were many items that had to be left out because we didn't know how to list them in our format, such as this birth notice from 12 May 1896: on May fourth two boys were born to two families who live in the same house at 229 E Front St. [no names].

Grape Belts were missing for the following dates:

Starting on page 277 is an Index of Collateral Names. This is NOT an every-name index, but a guide to point the way to surnames other than the one at the head of the entry. Only the first of a surname in an entry different than the alphabetized name is indexed. A researcher should check every entry of a surname in which there is an interest, even though the given name sought is not the one in the index.

BUCKLIN Will M 16 DEC 1895 Ripley 24 DEC 1895  
 to Mrs Grace Robinson, wife of Eugene Robinson of North East. She is the woman who was convicted of a crime in Erie Co court and sent to the workhouse some time ago. She stated to the minister that she had been married before and her husband is dead. This is the first indication we have had of Eugene Robinson's death... He was an excellent workman and understood his business. If we had been apprised of his death, we would have written a fitting obituary.  
 07 JAN 1896: Mrs Grace Robinson of North East has been committed to jail at Mayville, charged with bigamy.

- ELDERKIN Dr W K D 03 JUN 1893 Chautauqua 09 JUN 1893  
...attempted criminal operation on Mrs Addie Carlton, who died under the operation. The doctor wrote a brief letter giving the facts of the case, then injected morphine enough into his arm to kill five men. On a writing pad was found the following:  
MY LAST WILL & TESTAMENT: I desire that \$50 be paid to VanDusen & Martin to release a chattle mortgage on my personal property, and that everything of mine be sent to my father to be his. The reason that I take my life is that I have suffered with diabetes for one year and a half and I cannot endure a trial for the misfortune that has befallen me.  
This lady came to my office for a uterine examination and died immediately after the sound was introduced for the purpose of measuring the depth of the womb.  
There is no need of an autopsy on either of us. I died by hypodermic injection of morphia, she by shock and heart failure. (signed) W K E  
P S: I have in my pocket \$130. I did everything in my power to bring her to, but failed. What I dislike most is to leave my friends.  
I also want May Cadwallader to have my watch & chain and charm, and Hattie Parks to have my violin with music rolls and rack.  
Dr Rice of Jamestown and Dr Prendergast of Mayville, held an autopsy on the body of Mrs Carlton, from which they found that death result as stated...indications pointing to an operation of a criminal nature. Dr Elderkin had not lived with his family for some time, and was just off the "jail limits." 16 JUNE: lengthy testimony given to coroner's jury....Mrs Elderkin was excused from testifying, but told others that she knew her husband very often — hundreds of times — committed the crime of abortion.

JOY James	X	09 NOV 1893	Fredonia	10 NOV 1893
has been twice in the insane asylum at Dewittville, family claimed he was unmanagable Thursday and threatened the life of his sister...taken to Mayville....was discharged by Judge VanDuesen on promise he would stay away from his family. It appears he is not the only one in the family subject to violent fits of anger...mother seems to act as firebrand for the boy. Those who know him and the fate of an inmate of the insane asylum think it would be inhuman to commit him. Moreover it is strongly intimated that the boy's welfare is not the only motive which prompted the act on the part of some of his family.

MANGAN Patrick Holleran born Ireland 1825, was in 73rd yr...to Dunkirk 1854, emplyee of Brooks works....widow & 2 ch, Mrs C M Loeb & Miss Hannah Mangan. Had confidence & good will of H G Brooks, one of the men pulled through the blazing woods by the late Mr Brooks, who was engineer of the work train consisting of 14 cars all loaded with wood taken on at Cattaraugus together with about 40 men. The fire was between the cut and the white bridge near Sheridan. The ties were blazing in places. The train had gotten too far into the fire to risk backing out, so Mr Brooks opened wide the throttle.....The conductor pulled the bell rope to stop, but no attention was paid the signal....When asked why his orders had not been obeyed, Mr Brooks replied he would not risk the lives of the men on the train.
