Jamie presented the Operations report as follows: Luensman bathrooms are nearly complete- some electrical work needs finishing and a water treatment system to include softener and UV filter need installed. The work at the creek and trail have been completed. The Eggleston Hill lot has been flagged and work will begin shortly. The Town will also be assisting with part of the work. Erlandson water is still waiting Chautauqua Mechanical to rectify. The Anderson property and launch have been mowed.

The old plank walkways remain alongside the trails where work has been completed. These were to be removed during the work. Jacob will contact TCA and ask to have them removed.

They are in full support of cutting trees to open the view scape back up as they feel the Park is an integral part of their town. They will provide a letter of support for the records.

Jacob updated on trail work. The work on the Overland at Panama and Brokenstraw is completed. Improvement to the trail near the creek has switch backs not straight uphill now. Bridges from south to north- 7- need redecking still. Jacob has put new rack cards for the all-county map in all boxes. The ramp at Mud Creek needs work.

Theresa sent notice that the work at Boutwell is complete and trails back open.

Twan sent notice work continues on the Cassadaga creek clearing large hazards. Levant to Ross Mills is bad,

Dottie asked about legal approval for the horse trails and nothing has been received yet. Bob and Jamie said they would approach legal to get an update.
