### VFR AIRCRAFT

**\*\*\*CLASS B and C SERVICE IS MANDATORY\*\*\***

Expect delays outside Class B, C, D airspace during peak traffic periods. VFR advisory service with approach controls will be on a workload permitting basis. Approach facilities will not provide ATC Services for Practice Approaches during peak traffic periods.

Set transponder to 1200 and squawk altitude prior to reaching any Class B or C airspace.

Extremely high volumes of traffic are anticipated in this area.  
VFR flight following, airborne IFR pickups and other VFR services to aircraft may not be available in certain areas.

Check airport availability and plan your trip early.

Solo flights and student training are encouraged to be completed prior to the eclipse.
